PROPOSAL FOR
SUPERVISED LEARNING

Name of Faculty:

Semester: Credits: 6

Target group: B.Tech Honors & DD Students

Pre-requisites: Should have cleared CL 260, CL 336, CL 325

Scope of Activity: (50-100 words) [Faculty to specify]

Method /Scheme for evaluation / grading: [As decided by DUGC in 18 Nov 2010 meeting]: Student to be examined at the end of the semester by a panel consisting of the supervisor and atleast one examiner (another faculty member of our institute) based on the report and presentation. Each of them gives marks to the students out of 50, and an overall grade is recommended. Note that the department will not be creating common panels, and it will be upto individual supervisors to arrange for examiners for their students.

Signature of Faculty Member:

Approval of DUGC Convener:

Registration Details of Student:

Name: Signature of Student _____

Roll No.   Signature of Faculty _____

Note: The procedure to be followed would be:

(i) Faculty will list topics (max 2) they want to float in the above format (with scope of work and method of evaluation).

(ii) DUGC will discuss the floated topics.

(iii) Topics approved by DUGC will be advertised to the students.

(iv) The students will approach the faculty to discuss these topics. A faculty is free to take/not-take any student subject to maximum of two students.

(v) The student submits the proposal after taking faculty's signature.

(vi) Faculty's discretion about accepting or not accepting a student would be final.
